CHASING ICE

TIME-LAPSE DIRECTION AND STILL PHOTOGRAPHY BY JAMES BALOG

TUESDAY, APR. 16, 2013, 7:30 P.M. HENDRICKS CHAPEL

FREE TO THE PUBLIC

"Chasing Ice" is the story of Balog's mission to change the tide of history by gathering undeniable evidence of our changing planet. Within months of that first trip to Iceland, he conceived the boldest expedition of his life: The Extreme Ice Survey. Balog and his team deployed revolutionary time-lapse cameras across the Arctic to capture a multi-year record of the world's changing glaciers.
